

*Sunday, September 24, 9:00 a.m. "A Day Interconnected by Divinity"*

**<Explanation of the beginning of an e-mail>**

"Problems cannot be solved by the same level of thinking as that created them."

This is a famous quote from Einstein.

If we want to solve various problems we are facing today, we will never be able to reach fundamental solutions for as long as our consciousness remains being in the same level as that the problems arose. In other words, we cannot find fundamental solutions to the world's problems no matter how hard we may search for them in this world. The only things we can find are symptomatic and temporal solutions as if moving things on the right to the left.

When we think of this, we are reminded of the importance of standing on the "divine/sacred perspective" and "looking at everything from a bird's eye view" and also, making the "simultaneous and multidimensional vision accompanied by dimensional depth" our own. Then, we feel infinite power, courage, and determination well up from the depths of our hearts, making us think "There is no other way to open up the future of the Earth than to truly revive our own divine sanctity ahead of the rest of humanity."

For a long time, we have practiced a way of life in which we left everything to God (guardian spirits and guardian deities). After the descent of the Divine Spark IN on this world, this way of life has evolved into a way of "achieving our rebirth as divine/sacred beings and working at one with divinities."

By now, 20 years after the entry in the 21st century, many of us have come to realize that God, Guardian Deities, and Guardian Spirits are not separate existences from us who reside far up in heaven. This is a proof that we, those who continue to form the Divine Spark IN are actually living in unity with our Guardian Deities and Spirits.

Also, we are currently working for the completion of the earthly world jointly with all the heavenly spirits and divinities including angels and divinities in the Great Assembly of Light for World Salvation. When I think of this, I feel amazed by the evolution we have made from the days decades ago.

On Sunday morning, we will reconfirm that we are standing with an elevated consciousness that we are already living in the 4th/5th dimension, and radiate our divine/sacred light that transcends dimensional barriers thinking that we are emitting the light of life just like the sun.

## < My speech in Japanese at the beginning >

Hello everyone. Let's start the Zoom prayer meeting.

The world still suffers from poverty, hunger, terrorism, conflicts, wars, epidemics, and other human suffering.

Also, the destruction of nature continues to advance due to humankind's thoughts, words, and actions, and animals are losing their food and shelter. In this situation, the sky and the earth have no choice but to adjust their vibrations.

If we humans continue to rely on the civilization of the past, we will soon run out of the earth's resources, which we have relied on for so long, and it will be obvious that we will no longer be able to live as conveniently as we have in the past.

What should we do in such an era?

How can we pass on the future to the next generation?

What can we do at this moment?

I am sure that many thoughts are floating around in your mind, such as "We have to pray," "Let's perform Divine Spark IN," "We should Divine Spark Mind and show a new way of life," and so on.

We have been practicing morning, noon, and night to find divinity in all humanity and to take it for granted. However, many of you may find seeing the divinity in others difficult, no matter how long you have practiced.

That is because we have focused on the phenomena that appear and disappear, putting off what we need to see. What we need to look at closely and make it disappear is in our hearts.

We can graduate from the boundaries that create problems by turning our thoughts about others and the world back to ourselves and looking within ourselves to find the causes of our feelings.

In the Video Prayer Gathering, it was said, "Whatever the event or situation is, it is neither good nor bad." When the thoughts that cause us to see things as problematic are liberated, we can see what we only see and hear without criticizing, condemning, or evaluating.

That is the essence of the tanka poem, "Utsuru mono, onozu utsurite onozu kiyu, onore wa sumite, tada hisoka nari.

Today, let us sow the seeds of truth by turning our thoughts and feelings toward the people of the various countries and regions facing problems back to ourselves, seeing that only the divinity is true, and the rest is only the past that appears and disappears.

It's time to begin the World Peace Prayer in Japanese and English using Goi-sensei audio. After that, please close your eyes and meditate for three minutes and a half, placing your consciousness in a Divine Perspective. And when I say, "Hai, arigatou gozai-masu," open your eyes. Then, let's get started.

That's all.
