

Sunday morning, October 15 ♥ "A Day to Invoke the Divine" Email Preamble

We will have a program dedicated to Israel and Palestine on Sunday morning. I am sure that you have all witnessed the situation through the news, but it would be a waste if we, who should recognize their Divinity, become emotionally involved in such news, so please remember to "not be shaken by anything you see or hear" and "not be moved by anything you see or hear. Therefore, we would like to radiate God's light while striving to attain a state where we can maintain an awareness of holiness throughout the day.

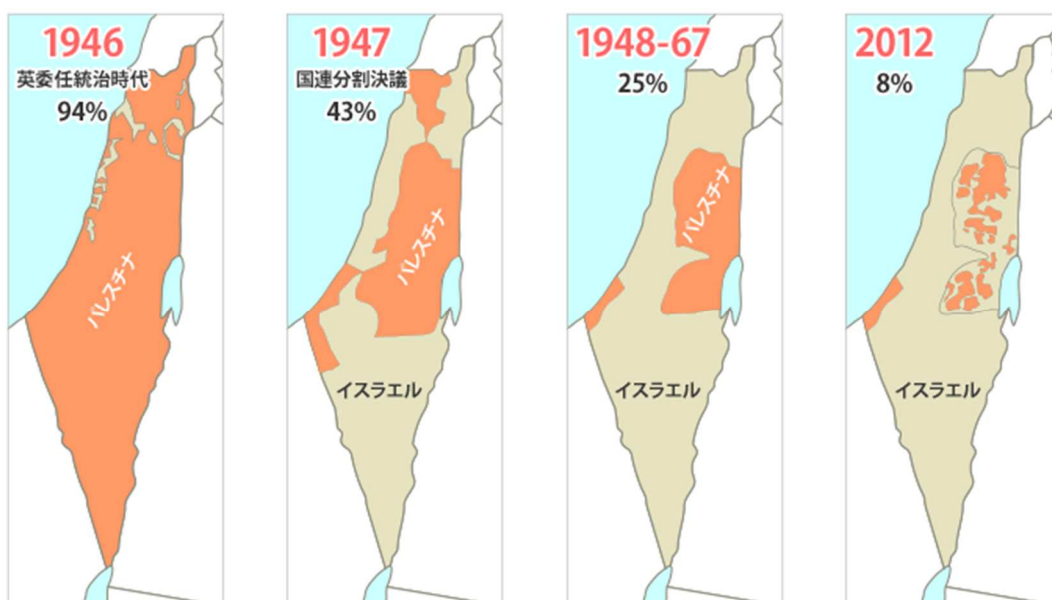

What we should keep in mind is that it is fine to believe that humanity is powerless, but it would be better to discern that "physical human beings are unenlightened persons" after having made a clear distinction between one's true mind and karmic thoughts. What I mean is that it is the physical body as a creature that is powerless, and the individual ego thoughts (fading thoughts like those in a dream) that are attached to the Physical Body Consciousness and will not leave it. Our true "Divine Consciousness" has unlimited potential, and we know that nothing is impossible if we do what is by our missions.

How ever if we try to think the truth that "nothing is impossible and everything is as we wish it to be" without having mastered the "clear distinction between true intention and karmic thoughts," our karmic thoughts will be stirred up to fulfill our ego's desire, which is also a complete reversal of the truth.

Suppose you try to think with the belief that "nothing is impossible" or "everything can be done as you wish" when you have not had enough practice to be aware of your true feelings and act accordingly. In that case, you will end up with the dualists of the world who believe that "what you think is right is right, and others are wrong, so you must correct them.

We must look at our hearts with humility and ensure that our prayers and behavior do not become an imposition of our beliefs. To this end, it is important to live a life of single-minded devotion to gratitude to live with the mind of our guardian spirits thoughts as our own heart. We will not go astray as long as we live with this in mind.

With this in mind, please look at the following diagram.

Looking at this figure, we can see the transition of the territorial area of Palestine and Israel since 1946. During the British Mandate, Palestine was 94% Palestine and 6% Israel, but in 2012, it was 8% Palestine and 92% Israel, and today it is 6% Palestine and 94% Israel, a complete reversal of the situation in 1946.

In terms of population in 1946, the pre-World War II survey showed 700,000 Arabs and 56,000 Jews. Still, with the influx of hundreds of thousands of Jewish immigrants from Europe into Palestine immediately after the war, two-thirds of the population was said to be Arab and one-third Jewish.

Under such circumstances, the United Nations adopted a partition resolution to favor the Jews, and the hostility between the two peoples deepened. The result is the current situation.

Since we have no other recourse but to promote Divine Spark IN, I would like to leave it to the Guardian Deities and Spirits to decide what is best for the situation, and we will wholeheartedly perform the Divine Spark IN.

On Sunday morning, I will leave my desires, such as "I wish this" and "I wish that," to the Guardian Deities and Spirits and the Gods of Earth Salvation while offering my heartfelt gratitude for being allowed to work together with the Gods, I will pray for the completion of the heavenly destiny of the people of Israel and Palestine, and I will pray for the their Divine Spark.

**Sunday morning, October 15 ♥ "Day of Awakening the Divine" Opening Remarks
(Moderator: Koga-San)**

Good morning, everyone. We will start the Zoom Prayer Meeting. Today, we will be cuddle close together pray and perform the Divine Spark IN with the hearts of people from various walks of life in the midst of the almost war-like situation between Israel and Palestine.

There is one thing I would like to make sure of here. We need to place importance on how many times we perform the IN. What is important is our awareness when we perform the IN.

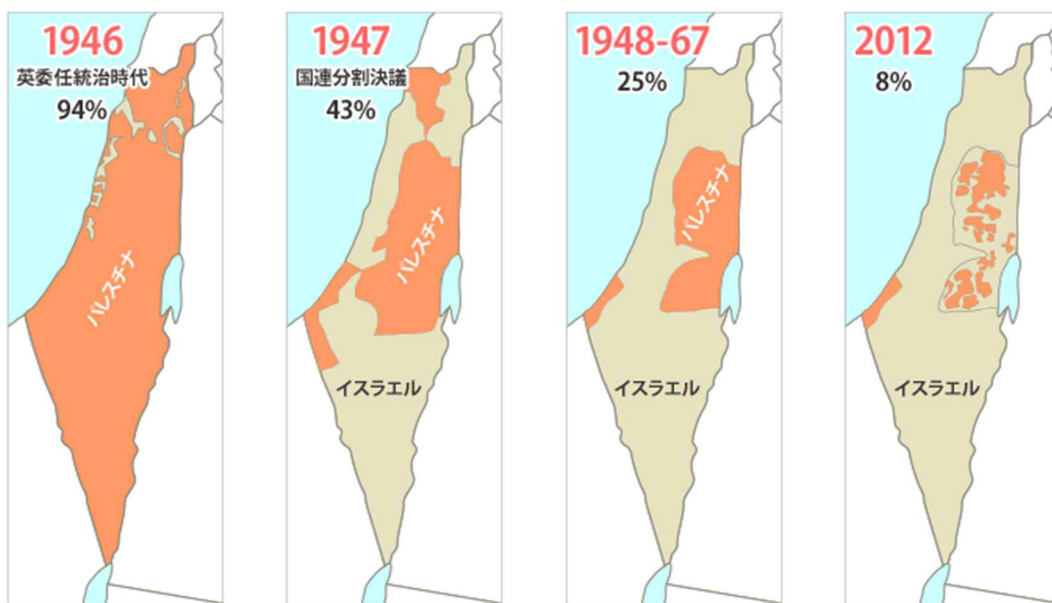

How much of our desires do we put aside at that time?

How much of our consciousness manifests the state of mind of God-self oneness?

By being conscious of this, our Divine Light will be more effective.

The efficacy of the Divine Spark IN will not change regardless of what we think in our Physical Body Consciousness, but if our consciousness, which is the most important thing, is far removed from the Divinity, then that really doesn't have any meaning. Therefore, today, when we perform the Divine Spark IN, we should be aware that our consciousness is sacred itself, that we are shining as a member of the gods, and we should perform each IN or prayer with all our heart and the utmost concentration.

Please look at the figures I have included in this email as reference material.

During the British Mandate period immediately after World War II, present-day Israel and Palestine were mostly Palestinian territory. Next, please see the second, from the left, figure. That is the status of the division of the territories as voted by the UN General Assembly on November 29, 1947. This territorial partition situation did not last long. Because soon after that, war broke out between Israel and the Arab states soon after.

At the time of the resolution, it was said that two-thirds of the people living in the territory were Palestinians and one-third were Israelis, but the partition ruling was clearly in favor of Israel. That is because the Palestinian side found the partition plan unacceptable due to lobbying efforts by Jewish billionaires and others. This "United Nations General Assembly Resolution 181" is one of the factors

that have complicated the issue to this day, and it can be said that the Israeli-Palestinian problem is also a problem for the international community. Of course, the fact that Jerusalem, the holy land of Christianity, Islam, and Judaism, is located there also deepens the root of the problem.

Since then, the Jews and Arabs living in the area have repeatedly engaged in wars in the Middle East involving neighboring countries. While the wars were not called wars, the skirmishes between the two sides continued, and as shown in the two figures on the right, the area claimed by Israel increased. The rightmost figure is from 2012, but it has been pointed out that the percentages in the leftmost figure from 1946 have completely reversed, at the present time, Palestine now controlling 6% and Israel 94% of the territory.

Therefore, even if we only follow these factual aspects, it is obvious that the two countries will inevitably fight each other and that we cannot reach a fundamental solution by relying on human wisdom, so we should not pray to change them with the binary emotionalism of "stop the war" or "do not kill people" or "lay down arms."

It is desirable that rather, we will work to solve the problem from the root by awakening the sacredness inherent in all victims and perpetrators equally.

Specifically, we will first become one with our guardian spirits. Then, we will unite with the guardian spirits of Israel and Palestine and the guardian spirits of the people of the countries with which we have a conflict of interest. In this way, we will bring the light of the Divine Resurrection to the Israelis and Palestinians and pray earnestly for the fulfillment of the destiny of the people of the land.

Today, we want to set aside our hopes for the moment and pray that the chains of causality that bind the people of Israel and Palestine will be broken, that they will regain the freedom of life, and that they will voluntarily choose the path of great harmony.

Now it is time so that I will pray for world peace using the 3.5-minute Unity CD in both Japanese and English. Please pray from the perspective of the Creator, rather than from the perspective of the creature. And when I say, "Hai, arigatou gozai-masu," open your eyes. Then let's get started.
