Sunday, October 8, 8:55 a.m. Japan time ♥ "A Day to Awaken the Divinity" Email Preamble

When we continue to pray from the standpoint of our internal Divinity, see all the perceptions attached to our physical bodies as "not me," and surrender them to the Guardian Deities and Spirits, we will all be able to view ourselves, others, and the world with the eyes of the heart equipped with the perspective of Divinity as standard equipment.

When we look at the world with such a true (divine) eye, we can understand the reincarnation of each soul. At the same time, we can also think of the connections with family, friends, acquaintances, and other relatives who are connected to each individual.

The world's destiny comprises those threads of spiritual continuity and connections that come together and are woven into a twill weave. When we look at the entire Earth from such a perspective, we are keenly aware that the peace of the Earth cannot be achieved without the salvation of all people, including those related to us in other worlds, and the purification of their memories.

In my last email, I wrote, "Problems cannot be solved by the same level of thinking that created them." - Albert Einstein.

The common role of all of us is to not base our consciousness on the world of relative ideas in which various problems have arisen but to continue to stand on the "bird's-eye view that sees the workings of God within everything and takes them for granted," and to and emit the great light of life.

That is because this is the "final means of salvation for the earth" planned and brought down to break through the deadlock of the phenomenal world.

When we, who recognize the Divinity of all things, perform the Divine Spark IN, whether we realize it or not, we are blending our physical energy with the super-special Great Light that flows directly from the source of life that created the universe and emitting it into the world to awaken humanity and to heal all nature and all living things.

Another important point is that although the Guardian Deities and Spirits and the Gods of Earth's salvation can see what is to become, whether it is the destiny of an individual or the trends of the world, the memories and thought habits of humankind attached to the physical body cannot be perceived in a way that is consistent with the mind of the Gods.

Only when we realize this can we appreciate the power of the prayer, "May our missions be accomplished." Then, we can feel the desire to pray for the accomplishment of all beings' natural

destiny.

Since the Gods know very well what it takes to accomplish the heavenly destiny, I believe that as long as we pray, "Let your will be done," our prayers will surely have the power to promote the accomplishment of the destiny of the object for which we pray.

On Sunday mornings, we leave our desires, such as "I wish this" and "I wish that," to the Guardian Deities, Guardian Spirits, and other Deities and offer our heartfelt thanks to them for allowing us to work together with them while praying for the accomplish of the heavenly destiny of all human beings on Earth, with an awareness that transcends the boundaries between dimensions, I hope to release the great light of life that will promote the Divine Spark of humanity.

Sunday, October 8, 8:55 a.m. Japan time ♥ "A Day to Awaken the Divinity" Opening Remarks

Good morning, everyone. We will begin our morning Zoom Prayer meeting.

For a long time, we have prayed for world peace and the great harmony of all humankind, nature, and all living creatures.

Since the middle of the 90s, we have been upgrading our prayers with various Ins.

As a reminder, "Were we not focused on performing numerous INs in the past few decades?"

In a talk I gave at the Video Prayer Gathering one day, I heard something like this:

"I appreciate that you perform many INs, but what is important is not the number of INs. What is important is your divine awareness of making the INs. Therefore, even if you are too busy to make many INs, it is enough to do it once a day with a sincere heart and an awareness of the Divine.

If you listen to this story in reverse, it would be better if those who can do a lot of marking INs daily do it once daily with a mind of holiness and sincerity.

The important thing is that performing the IN itself is not important, but the awareness of the Divinity and then performing the IN is important. For this reason, the "imaginative Divine Spark INs" we perform when we cannot perform the IN with movement are just as effective as the ones with movement.

Today, as we make the Divine Spark IN together, let us remind the awareness that we are performing the Divine Spark IN from a position of Divine standing.

Let us begin the event by reflecting once again that whether or not the Earth world becomes a wonderful planet depends on whether or not the evolution of consciousness of Earth humans is carried out without delay.

Now that the time has come, we will use the three-and-a-half-minute Unity CD to pray for world peace in Japanese and English. Today, please pray from the Creator's perspective rather than the creature's. When I say, "Hai, arigatou gozai-mashita.," please open your eyes. Then, let's get started.
