Saturday evening, May 18, 2024 "A Day Interconnected by Divinity" Email Preamble

We radiate the Divine Light daily with the deepest desire for perfect World Peace. A world in which great harmony is achieved is one in which "the smooth circulation of the natural world" and "the peace of all living things" are simultaneously realized. The only absolute condition for creating such a world is the restoration of divinity in the minds and bodies of the people of the Earth.

It is because the phenomenal world mirrors humanity's inner world. Therefore, when all people of the Earth have reached the stage of sharing and manifesting the ideas of the Universal God, it will be possible for nature, all living things, and humanity to live together in the cycle of life, supporting, utilizing, helping, and connecting.

To create such a world, it is important for those of us who remember such truths to be 100% aware that our true nature is divine and to live by manifesting that true nature without delay. That is because the people of the Earth, who have completely lost sight of the truth, need role models who can make them guess, "I should live like that.

A role model is a person who can serve as a role model for humanity in their way of thinking, every word and deed, and behavior. Since there are various types of humanity, the number of role models must be sufficient for each type of nature of the Earth's human population.

Each of us who pray daily for the harmony of the Earth has our unique personality from a statistical classification. Each of us is truly unique. In other words, each of us who can form an IN while praying for peace today fulfills the "kind of humanity" needed in the earth world.

Because we are part of God's plan, we gather daily to pray and join. We are "the right people in the right place at the right time. However, in order to achieve perfect peace on Earth, we need to love, pray, and form INs with others, and at the same time, we need to educate ourselves to polish, nurture, and elevate ourselves to the highest level of divinity.

Without proper self-education, we will be in a state where we are resonating out the vibrations of light on one side while unknowingly dripping out the karmic vibrations of duality during the rest of our unconscious living time. Then, the waves of light we emit daily will be canceled out, and we will slowly evolve our consciousness while emitting light to others.

When the fate of the Earth was not yet on the brink, we didn't need to be so rigorous in improving ourselves. Now, however, in the age of the Sword Peak, the actions, and deeds of those who have awakened to the truth greatly influence the fulfillment of a bright future. In this sense, every day, hour, minute, and second that we live is a series of choices and turning points that determine whether or not we will approach the Divinity Age.

In the last few thousand years, there has never been a time when the distance between the Gods who protect the Earth, and the Physical Body of humanity has been as great as today. It is because, with the birth of approximately 10,000 "Shinjins" on Earth, a tide of divine revival is quietly spreading to the rest of the Earth's human population. That is an obvious fact spreading behind the chaotic situation, as seen by those with eyes.

When we understand these facts, a divine spark ignites in our hearts, urging us to "nurture ourselves" and "establish unshakable divinity. Once the spark of divinity is ignited in our hearts, we will naturally take action to nurture ourselves.

What is important to focus on is to practice realizing and experience with our mind and body the "uninterrupted circulation of the spiritual and material vibrations that make up all phenomena" in the entire universe and individual spheres of vibrations, that is, the "reality of the oneness of life as a whole. If this practice is done in conjunction with outward good deeds such as prayer and IN, we will be 100% aware that our true nature is divine, and we will be able to live in the manifestation of that true nature.

With this in mind, we will have a program on Saturday evening (Japan time) to strengthen our sense of oneness. It is an effort to nurture we and sow the seeds of divine awareness in humanity. This time, for each item in this program, we will make a declaration and repeat the process of deepening our introspection after forming an IN, so please leave all thoughts to the Guardian Spirits and participate with an empty mind. If you don't think you can do this, please rest assured that you will be able to do so as we work together.

Saturday evening, May 18, 2024 "A Day Interconnected by Divinity" Opening Remarks

Hello, everyone. Let's start the Zoom Prayer Meeting.

Everyone, whether you are here now or not, aware of it, who is tirelessly and unceasingly praying and doing IN in their daily lives, is living as one of humankind's role models.

Each of us is embarking on a unique and unprecedented journey, a path that no one else has taken. This path is about nurturing and fulfilling the Divine Spark within us, while embracing our individual personalities and characteristics.

If we compare it to climbing Mt. Fuji, we are carving out a "path of life as a child of God" for people of various characteristics, such as those who climb from the east, west, south, north, south-southwest, northeast, and southwest.

The "path of life as a child of God" is being opened up for people of all natures. From a broader perspective, we, with our diverse personalities, are united in our prayers. Together, we are paving the way for climbers from all directions to reach the Divine Spark.

As of May 18, 2024, each of us is living our lives, paving our paths toward that time when humanity will awaken to the truth, preparing the way for all to pass. The day will come when someone else will climb the path we are carving out now.

When that day comes, we need to support the Divine Spark of humanity by becoming the path itself and having our backs cross over, or sometimes by walking with a hand or a push on our backs.

Toward that day, we will make a day to become clear and convinced of the following.

"Oh, I see. We have been totally one in the light of the Divine Spark from the beginning. We were all connected to each other in the beginning. I just didn't see it."

Today, we will make declarations toward the seven items, form the Divine Spark IN, and take time to pray silently, repeatedly confirming that we are connected to nature, all living things, and all of humanity, supporting each other, making use of each other, and helping each other.

Also, today, in the first through fourth items, we will be praying to be close to those currently in difficult situations and to bring the light of the Divine Spark to their hearts. We will be doing 33 IN sessions in total, and those who will be forming IN standing, please do not hesitate to sit down and join us if you feel a little pain in your knees or back.

First, Prayer for World Peace in both English and Japanese.
