Theme: "To Equip Ourselves with a Standard of Divine Self-Awareness"

HOW MAN SHOULD REVEAL HIS INNER SELF

Man is originally a spirit from God, and not a karmic existence.

He lives under the constant guidance and protection provided by his Guardian Deities and Guardian Spirits.

All of man's sufferings are caused when his wrong thoughts conceived during his past lives up to the present manifest in this world in the process of fading away.

Any affliction, once it has taken shape in this phenomenal world, is destined to vanish into nothingness. Therefore, you should be absolutely convinced that your sufferings will fade away and that from now on your life will be happier. Even in any difficulty, you should forgive yourself and forgive others; love yourself and love others. You should always perform the acts of love, sincerity and forgiveness and thank your Guardian Deities and Guardian Spirits for their protection and pray for the peace of the world. This will enable you as well as mankind to realize enlightenment.

The opening of 'How Man Should Reveal His Inner Self' contains an important fact that we must learn first and foremost. That is the part that says, "Man is originally a spirit from God, and not a karmic existence. He lives under the constant guidance and protection provided by his Guardian Deities and Guardian Spirits."

This is the first thing we must learn to practice the truth and continue developing our Divine Spark IN.

Then, we return to a state of awareness where we see the "truth that divinity dwells in all things" as a matter of course. To do this, we need to consciously perceive the words written there as "our own" rather than as "something that applies to all human beings" in a vague way and make it our way of life.

Apart from those who can realize the truth and express it in their thoughts, words, and actions after reading "How Man Should Reveal His Inner Self" just a few times, ordinary people like us can only come to believe in the truth written there after countless hours of copying it out and reading it out loud. Then, after going through the conviction stage, we can recognize it as a matter of course.

The next section says, "All of man's sufferings are caused when his wrong thoughts conceived during his past lives up to the present manifest in this world in the process of fading away."

Also, in the last verse, it says, "Any affliction, once it has taken shape in this phenomenal world, is destined to vanish into nothingness. Therefore, you should be absolutely convinced that your sufferings will fade away and that from now on your life will be happier. Even in any difficulty, you should forgive yourself and forgive others; love yourself and love others. You should always perform the acts of love, sincerity and forgiveness and thank your Guardian Deities and Guardian Spirits for their protection and pray for the peace of the world. This will enable you as well as mankind to realize enlightenment."

In her most recent phone message, Masami-sensei discussed the importance of having the initial setting of consciousness: "I, who am a divine being, am forming the Divine Spark of Resurrection" when forming the Divine Spark of Resurrection.

This can be achieved by manifesting the opening passage of "How Man Should Reveal His Inner Self" in your thoughts, words, and deeds.

Efforts to stimulate and transform the delicate parts of our consciousness should not be made because someone told us to but because each individual should practice them voluntarily and internally.

However, as the program for "A Day Interconnected by Divinity" is a day for remembering our interconnectedness with the memory of divinity, we will also be holding a program to encourage our own "awareness of divinity" this time.

As always, we would like to ask those who have already made divine awareness their own and who naturally think, speak, and act with the divine in mind to help those who are close to reaching that state.

Saturday evening, August 17, 2024 "A Day Interconnected by Divinity" Opening Remarks

Hello, everyone. Let's start the Zoom Prayer Meeting.

From today, we will run a program that focuses on putting into practice the "How Man Should Reveal His Inner Self" text. This "text is the first we encounter after being exposed to the truth of Byakko.

If we look inside our hearts, I think that each person's relationship to "How Man Should Reveal His Inner Self," its position, and approach will naturally be different.

Some people see it as "their "Bible" or "golden rule"; others see it as a phrase to be repeated like a mantra" and "other" rs see it as "an ideal way of life to be revealed within themselves.

I guess that the way of life described in this writing is in line with the truth of the universe and the way of being of man, so I see it as an ideal way of life to be revealed within myself.

For about 40 years, I have been thinking about how I can manifest the writing's content on myself. The idea that came to me was to read it out loud and book it down many times, letting it sink into my heart and become my way of thinking.

So, in my early twenties, I really worked hard at this. And in my youth and middle age, I worked hard in my own way, and now, as I approach old age, I am really working hard to put into practice and manifest what is written in my thoughts, words and actions. During now, I read the words out loud countless times, and I don't remember how many times I copied them down.

However, what I can say with certainty at this point is that the true words and mantras written there are not just "the words written by Goi-sensei" or "the teachings of Byakko-no-Kyo," but "my way of living," "my way of thinking", "life itself," "my beliefs themes," and I am striving to live in my life"

So, on August 17th, 2024, when recognizing ourselves as "divine beings" has "become an urgent issue, I would like each of us to face our" hearts by fo" using the first passage written at the beginning of "How Man Should Reveal His Inner Self."

This is because the passage "Man is originally a spirit from God, and not a karmic existence. He lives under the constant guidance and protection provided by his Guardian Deities and Guardian Spirits." it's and Guardian Deities" answers the question we are facing today: "To recognize ourselves as divine beings 100%."

If these opening words become "the source of our way of life and our thinking," we will be able to manifest God's thoughts, words, and actions as divine beings at this moment in time.

This is because the passage "Man is originally a spirit from God, and not a karmic existence. He lives under the constant guidance and protection provided by his Guardian Deities and Guardian Spirits." provides the answer to our current challenge of recognizing ourselves as divine beings.

By making a commitment based on a life-or-death resolve to "make the things written there manifest in my thoughts, words and actions, no "matter what it takes" and "sublimate them into my own way of life," we can become living "example" es and role models of "How Man Should "reveal His Inner Self."

In 2024, we are no longer in an age "where we can just praise Goi-sensei and say, "Goi-sensei is wonderful." It is an age where we must respond to Goi-sensei's words, "You are "the incarnation of myself, Masahisa Goi."

Goi-sensei's in which we live as little Goi-sensei, manifesting thoughts, words, and actions of a divine being within ourselves. Let us approach today's program with our hearts aware of this.
