## Saturday evening, December 21, 2024 "A Day to Awareness of the Divine Mind" Email Preamble

**Theme [The Keystone of Divinity Reawakening "Think as disappearing it and Prayer for the Wo Theme: "To live in awareness of our divine mind"]**

When we are living in a state of awareness of our divine mind, we feel gratitude for everything. This means that our consciousness is in a state of natural, effortless gratitude towards people and events that touch our five senses.

In order to make such a state of consciousness as that of a god our natural state, you need to go through a 'period of refining the light of life' so that we can instantly give thanks in thought, word and deed for everything we see, hear and touch with our five senses.

There are many people I am involved with, such as those who attend the Zoom Prayer Meeting, who have already completed the "period of refining life" and are living their lives with gratitude in their natural state. There are also many people who are on the verge of reaching that point.

When a divine mind becomes the norm, that is to say, when you can be grateful for everything, your spiritual suffering becomes infinitely less. Even if you are in a physically painful situation, you do not perceive it as suffering. You can think naturally, "Oh, through this situation, my Guardian Spirits are cleansing my mind and body." Therefore, this leads to gratitude for being alive, and you feel "I am so grateful." When this happens, you can pass through the state of pain and suffering without difficulty. This is a state of peace and tranquility, having graduated from the suffering of birth, aging, illness, and death.

What becomes important here is "how we live in the stage just before humanity as a whole reaches the realm of divinity". The reason for this is that egos who are afraid that "if I become a great person, I will lose my place in the world" will try to prevent us from rising to the level of being in a state of gratitude. If we look at this situation from a broader perspective, it is similar to the state of confusion in the world that is a prelude to the establishment of World Peace on Earth.

When we look at it in this way, it can be said that whether or not the Earth can transition to a planet of great harmony that is open to the universal society depends on how each of us lives our lives.

Each of us, who hold the key to the future of the Earth, is already moving towards a state of true enlightenment and oneness with the divine. Or, we could say that we are living on the verge of this transition. This is because each and every one of us has been steadily putting into practice "How Man Should Reveal His Inner Self" and "Think as disappearing it and Prayer for the World Peace" up to the present day. It is also nothing but the result of having continued to polish our

souls in such a way and having continued to steadily form together various INs, including the Divine Spark IN.

We are also able to live in this way thanks to Goi-sensei and the various gods and good spirits of the Great Light of Salvation. Also, we are also indebted to the divine spirits from other planets who have already transitioned to the divine world and are supporting us here on Earth. They are watching over each and every one of us from heaven and pouring special light energy into our bodies and minds to empower us.

For the past century, the world of Earth has been a world where the waves of the physical world and the astral world have overlapped. As a result, there have been many people and countries that have manifested thoughts and actions that are hard to believe are the actions of human beings. However, as of 2024, the average values of the spiritual and physical vibrations surrounding the world of Earth are approaching the vibration sphere of the spiritual world without limit. This means that the physical world and the spiritual world, which already encompass the astral world, are overlapping.

In this situation, what all human beings on Earth must do (in fact, must do immediately) is to change their way of life so that they can be grateful for everything. However, this cannot be done overnight. For this, a period of practice is necessary. There has never been a time when it is more important to enjoy this practice time and cherish the self that is polishing itself.

So, on Saturday nights, we will enjoy the time we spend practicing to reach oneness with the Divine, and share the time we spend cherishing ourselves as we improve ourselves. Now, at this turning point in history, let us steadily open up the path to Divinity so that all people can experience Divinity Reawakening and create a bright future together.

**Saturday evening, December 21, 2024 " A Day to Awareness of the Divine Mind " Opening Remarks**

Hello everyone. We will start the Saturday session, "A Day to Awareness of the Divine Mind." In the email announcing this week's program, I wrote the theme "To live in awareness of our divine mind".

In it, I briefly describe the state of divine awareness. It means that "if you can be grateful for anything, you are expressing your divine mind."

However, as the saying goes, "It's easier said than done". For us ordinary people to reach that state, we need to live our lives with gratitude at the forefront of our minds, being prepared to be grateful at all times. If we live our lives with a short time each day spent in a state of gratitude, it will take us decades to gradually acquire the state of mind of total gratitude.

Those who are born with a noble soul may be able to feel gratitude for everything without much practice. However, except for a very small number of people with special missions, spending many years or decades practicing conscious gratitude is necessary. In some cases, it may take a lifetime.

I would like to share my experience here. As I have mentioned several times on Zoom, the written oracle of New Year's Guidelines for 2007 at Byakko was very strict, saying, "You have too many karmic thoughts. Reverse them over the course of your lifetime."

Even though I was told this, I did not get up off my backside, but when I did, in 2010, I received a divine revelation from the Guardian Deities to "say 'Thank you very much' to everyone in everything."

When I replied that I couldn't do it, I was scolded severely. After that, the Guardian Deities gently admonished me, saying, "Even if you're cursing in your heart, 'Why do I have to say 'Thank you very much' to this kind of person?', just try saying it with a smile on your face and a soft voice." After that, I spent my days being grateful to everyone.

When I had gotten to the point where I was able to express my gratitude to others without difficulty, I began to wonder whether it would be a little one-sided to only be grateful to other people. The reason I took this path was because I was not good at human relationships, and so my Guardian Deities and Guardian Spirits taught me the 'Gratitude Practice Specializing in Others', and I took that path.

In this way, I started to think, "I should be grateful for everything, not just for people," I practiced being grateful for everything I could feel with my five senses, such as what I saw, heard, and touched. Before I knew it, I had come to feel grateful without even thinking about it.

One day, while practicing like this, I read Goi-sensei's book and came across the following passage. This part is on page 164 of his book "Mastering the Self" in Japanese. It was a talk given in January 1973.

"There is no complaining in enlightenment. You will only feel 'Thank you, thank you for everything. (omission) No matter what happens, no matter what comes up, 'Thank you, my Guardian Deities and Guardian Spirits. Thank you' is the feeling that arises in enlightenment. It's easy to think "Thank you." So, please do your best to think as disappearing it and Prayer for the World Peace."

Now, in 2024, the world we live in is in a state where it is easier to think of the world as a "disappearing figure" than it was 10 years ago or 20 years ago, and it is also easier to live our daily lives with gratitude, gratitude, gratitude, and to enter into the vibrations of Prayer for the World Peace.

That is because our predecessors have paved the way, and we have been living our daily lives with the Prayer for World Peace in mind. We are now living in a vibration sphere where it is easy for anyone to enter the world of enlightenment.

While being grateful for being able to live in such a wonderful environment, today, with 2025 just around the corner, we will pray and form the Divine Spark IN with our divine mind as our usual mind, so please join us.

It's time to start so that we will begin with a Prayer for the World Peace in Japanese and English.

## 2. Time to Reflect on the Divine Mind

[Music plays during the story]

**Thank you. Next, we would like to reflect on our original divine mind. Our lives are originally the spirit of God. Also, deep within our souls, we are Divine Beings that contain the mind of the spirit body, the mind of the God body, the mind of the Guardian Spirits, the mind of the Guardian Deities, and the mind of the Universal God.**

**However, as we have repeated reincarnation on Earth, moving between the physical world and the astral world and the spiritual world, we have forgotten the true nature of our lives.**

**However, our souls, which can pray for “World Peace” and “the reawakening of all divinity”, have not completely forgotten their true nature.**

**This is because human souls are not made up of a single spiritual lineage, but rather two or three spiritual lineages are gathered together as one spirit and are born into the Physical Body as descendants.**

**There are two main types of spiritual lineage that are assigned to each person. One is the spiritual lineage of the higher realms that has already experienced enlightenment in a past life, and the other is the spiritual lineage of the lower realms that has not yet reached a high level of consciousness and still has soul issues from a distant past life.**

**These two types of spiritual lineage are mixed together and manifest in the form of each of us in this life.**

**If this is the case, then why is it that the noble lineage is not expressed on the surface of everyone? The reason for this is that the overall level of consciousness of humanity as a whole is low.**

**It could also be said that our Guardian Deities and Direct Divinity decide the degree of mixing of the spiritual lineages by looking down on the whole of the Earth and deciding which spiritual lineages should be combined and integrated for the betterment and evolution of the whole of the Earth.**

Therefore, as has been said since ancient times, it is important for us humans not to dwell in the “what if” cave, looking back on the past and thinking “if only it had been like this” or “if only it had been like that”.

It is also important to go out into the light of the sun, even if that means rubbing or clashing with other people, and to believe without doubt in the divinity of the true nature of all humanity, and to open up the future with a bright hope.

You have all heard the phrase “You are all very old souls” so many times.

If we trace back our past lives to the groups that World Peace Prayer Group and the Great Light of Salvation, we are all extraterrestrials who have been transferred from Venus to Earth. As you all know, this is the case.

We, who have such an ancient spiritual lineage, can bring back memories of those divine times through our daily thoughts and actions that refine our own divinity, and we can live our lives making use of these in our current lives.

Even if there are some flaws or shortcomings in our hearts that we can't seem to fix, we don't have to feel down about ourselves and think “I'm no good at anything”.

This is because our soul's history is not limited to past lives full of such homework. We are extraterrestrial humanity who migrated to Earth from other planets with the mission of making Earth a planet of great harmony.

By extraterrestrial, we mean divine spirits who are equal to the gods of the Earth. As such, there is no way that we, who have lived past lives as members of the divine world, cannot achieve Divinity Reawakening.

In fact, we have been able to connect with the Prayer for the World Peace group. Of course, this is due to the guidance of our Guardian Spirits and Guardian Deities, but even their Guardian Spirit Consciousness and Guardian Deities Consciousness can be said to be our own internal divinity, or Higher Self, when we look at our whole soul from above.

From 2025 onwards, we are living with the mind of oneness with our Guardian Spirits and Guardian Deities, and with a heart of gratitude for everything.

If we don't, there will be no future for the Earth. We were born with this body in this lifetime in order to guide the Earth to become a sacred civilization planet, like the other planets, without destroying it.

The time to manifest the divinity that resides within our lives is now. In my heart, the words of Jesus Christ that Goi-sensei wrote in the “Bible Lectures” are still reverberating over and over again. Finally, after reading those words, we will move on to the next program.

**“You are the salt of the earth, the light of the world, and the children of God.  
How can World Peace be completed without you all getting moving?  
The time is now.”**

★☆☆★☆☆★☆☆★☆☆★☆☆★☆☆★☆☆★☆☆

### 3. Time to deepen our recognition of divinity

**Thank you. Now, in order to deepen our awareness of the divinity here, we will chant the divine words “All is perfect and complete. Nothing is lacking. Perfectly accomplished. Dai-Jouju” 49 times in a row. If you are unable to speak out, please chant it in your heart. “All is perfect and complete. Nothing is lacking. Perfectly accomplished. Dai-Jouju.”... I will proceed at this speed. Let's get started.**

**All is perfect and complete. Nothing is lacking. Perfectly accomplished. Dai-Jouju.**

**(Subete wa Kanpeki, Kaketaru Mono Nashi, Dai-jouju!)**

## 4. Divine Spark IN

**Thank you. Lastly, let us perform the Divine Spark IN seven times. At the “Hai” signal, please make the declaration together and make the IN. Let's get started.**

**As Divine Beings, we send Universal God's light while embracing the great nature, all living things, and all of humanity.**

[Divine Spark IN 7 times in a row]
