
Saturday, January 4th, 2025 (night) "A Day to Awareness of the Divine Body" Email Preamble

Today, we will send the light of divinity to all countries and regions of the world, while firmly connecting with the divinity of people from all countries and regions of the world.

The place where we are connected with divinity is the world of oneness of light that exists deep within our hearts.

Therefore, as we pray, we will imagine the light of divinity overflowing from the depths of the hearts of humanity around the world, and then rising up to the surface consciousness.

Saturday, January 4th, 2025 (night) "A Day to Awareness of the Divine Body" Opening Remarks

Hello, everyone. We will start the program for 'A Day Interconnected by Divinity' on Saturday evening. From this time onwards, in order to demonstrate the results of our previous inner work, we will be conducting prayers that express the resonance of divinity from various angles.

The connection with everything, from humanity and nature to all living things, the earth itself, and even the universe, is proportional to how much our inner world, our heart, is attuned, expanded, and deepened. The connection with everything through divinity reflects the state of our hearts in the outside world.

For this reason, since the start of 'A Day Interconnected by Divinity' in May 2023, we have been running programs that emphasize inner harmony. However, with so many people now becoming aware of the Divinity Reawakening, the time has come to move beyond such activities. We have now entered the stage of putting the thoughts of divinity into practice.

Therefore, starting this year, on 'A Day Interconnected by Divinity,' we will actively manifest the resonance of divinity and carry out programs to strengthen and deepen the connections between humanity, nature, and all living things in the world.

It's time, so first, we will pray for world peace in Japanese and English.
